Placement Testing: Multiple Measures

In an effort to accelerate the remediation process and provide multiple avenues to achieve college level, CCC has employed Multiple Measures as alternatives to Accuplacer placement:

**READING***:

1) Retest via the Nelson-Denny Exam - Score of 12.5+ places to college level, or  
2) Achieve “PHS” (Post high-school) on the Gates-MacGinitie Reading exam, or  
3) Achieve 540+ on SAT Reading - places at college level reading, or  
4) Reading Brush-up class ($40) with college level post-test placement

**ENGLISH***:

1) Achieve 11.5+ on the “HSPA Writing” (expository & persuasive essays), or  
2) Achieve 540+ on SAT Reading - places at college level English, or  
3) English Brush-up class ($40) with college level post-test placement

*Please note: May 2013, college level English placement is determined by a combination of English and Reading Accuplacer or Multiple Measure scores.

**MATH**:

If students achieve **63 - 75** on the Accuplacer **Elem Algebra**, they may:

1) If they took Pre-calculus in high school, they may bring HS transcript to the Testing & Tutoring Center to be placed into college level math, MA10X, or  
2) If they did not take Pre-calculus in high school, they may challenge pre-college algebra by retesting via the Developmental Algebra Exit Exam, or  
3) Achieve 530+ on SAT Math - places at college level math, or  
4) Algebra Brush-up class ($40) with college level post-test placement

If students achieve **20 - 62** on the Accuplacer **Elem Algebra**, they may:

1) Challenge basic math via the Accuplacer **Arithmetic** test - achieve 72+ to be placed into MA094 (do not have to take MA091)  
2) Arithmetic Brush-up class ($40) with MA094 post-test placement

If a student’s primary language is not English, he/she will be guided to take the Compass-ESL exam. **ESL Placement** will be determined via scores plus an interview.

**Questions?**  Please contact Melissa Wright, Asst. Director of Testing & Tutoring:
